## ABOUT THE COMPANY

We are an allied group that is composed of Iraqi doctors, software programmers, and administrators, we have built a so called Third Party Administrator company (TPA) that is specialized in coordination between all parties that are concerned in health insurance and in management of claims approvals and payment.

We have made reliable solutions for the problems that have faced foreign TPA companies which have been worked in Iraq according to Iraq's special circumstances.

We belong to Al-Taif group of companies that is well known for modern good services.

We are proud of our teams and the expandable high-quality network of contracted health care providers.

# OUR VISION & MISSION

Comfortable client, comforted employer, comforted health care provider, and comforted insurance company. We study policies, circumstances around the health care providers, and the needs, rights, and terms and conditions of every entity in the process, then we put an accepted solution for every step that may make the process hard or annoying.

Success starts from the satisfaction of each individual insured member. The member's visit has a major impact on all parties, his/her employer, health care provider, insurance company, and our company. Thus we focus on how to achieve a feasible comfortable visit for our clients to the health care provider by making all steps easy and reasonable, responding to all complains and requests, and listening to any suggestion comes from any party.

Clients will always find a nearby health care provider of high quality level, and is confident that matters will all go easily when visit any provider anywhere inside and outside Iraq.

Insurance company gets no complains and feels confident that policies are being applied regarding even simple matters.

Health care provider will face no complains or delay in dealing with insured clients and by accounting process to be paid by the insurance companies.

## OUR SERVICES

Basically and mainly, we manage and operate health insurance related processes.

However we can also manage health insurance fund. We support institutions and companies who have health insurance fund to organize plans of covering their employees in a way to make the fund beneficial the most the possible fairly to all employees around the year.

info@saicinsurance.net
- Al-Ahliya Insurance company  
aic-iraq.com  
info@aic-iraq.com

## OUR ONLINE SYSTEM

Every party can get access to our system to follow up their related claims with total privacy protection. Our system is very feasible and easy to use with a wide range of information. Providers can manage to get approvals from claims automatically, and get statistics with the ability of organizing the required info. Insurance company can track all claims for their clients and get statistics anytime they wish. Insured customers can also get such access to track claims and statistics of themselves.

## OUR VISION ABOUT THE NETWORK

We are very care about choosing the health care providers. We select those that have variety of services, well oriented and careful about customer's satisfaction and health insurance, and geographically reachable by clients. Providers are being added to the network wherever it is required to serve our clients. We provide direct billing in all cities and countries all over the world, including Iraq.
